

This Acceptable Use Policy applies to all members of vo.cmip5.e-inis.ie Virtual Organisation, hereafter referred to as the VO, with reference to use of the LCG/EGEE Grid infrastructure, hereafter referred to as the Grid. The e-INIS collaboration owns and gives authority to this policy.

As part of the EC-EARTH project, it is anticipated that approx. 200 TB of data will be generated on ICHEC systems, to be used by EC-EARTH consortium members and the wider climate community. To store this data, ICHEC is working in collaboration with e-INIS to store this data and provide rapid light-path access to Irish and International academic partners, at speeds of up to 10 Gbps.

Members and Managers of the VO agree to be bound by the Grid Acceptable Usage Rules, VO Security Policy and other relevant Grid Policies, and to use the Grid only in the furtherance of the stated goal of the VO.
